CERT ORGANIZATION

by Geoff Gerny

CERT is a volunteer organization of training individuals from the community, school district and business community who will help themselves and others during a major emergency, when first responders are overwhelmed and cannot respond to all of the calls for help.

The El Segundo Fire Department currently has 3 specialized programs: Community (CERT); Business (BERT) and the School District (SERT) to offer El Segundo a comprehensive training program.

"One of the many privileges of being a public servant is the chance to see firsthand public service's value and impact in our communities, country and world. A commitment to service maximizes Americans' spirit of engagement...in doing so, it embeds civic engagement into our national identity while uniting us in pursuit of the common good." Shawn Skelly
Inspiring the Next Generation of Public Servants
